

ATHARVA JALINDAR YEWALE

Ethical Hacker | Cybersecurity Analyst

✉ atharvyewale100@gmail.com ☎ +91 9325324711 📍 Pune, Maharashtra

PROFESSIONAL SUMMARY

Highly motivated cybersecurity enthusiast skilled in penetration testing and vulnerability assessment. Focused on identifying security gaps and implementing robust defense mechanisms to protect digital assets.

EDUCATION

Higher Secondary Certificate (HSC)

Pursuing self-paced certifications in Cybersecurity

CORE SKILLS & TOOLS

Cybersecurity

Penetration Testing, Bug Bounty Hunting, and Vulnerability Assessment.

Network & OS

Networking fundamentals, Cryptography, and Advanced Linux (Kali Linux).

Tools

Nmap, Metasploit, Burp Suite, and Advanced Search Engines (Google Dorks).

CERTIFICATIONS

Bug Bounty Hunting

Level 2 Certification.

Penetration Testing Certification

Cyber Security Essentials & Introduction to Cyber Security

Ethical Hacking Program

Great Learning Academy
sessions.

STRENGTHS & INTERESTS

Strengths — Cybersecurity Mindset, Fast Learner, and Strong Analytical Skills. | **Interests** — Active in Cricket, Kabaddi, and Physical Fitness.

PROJECTS

Local Network Vulnerability Assessment, Tools: Kali Linux, Nmap, Metasploit.

Developed a secure virtual lab environment to practice network penetration testing. Conducted network reconnaissance and port scanning using Nmap to identify active services, and utilized Metasploit to understand vulnerability exploitation safely.

Web Application Security Testing, Tools: Burp Suite.

Performed manual security testing on deliberately vulnerable web applications like OWASP Juice Shop. Intercepted and analyzed HTTP requests using Burp Suite to identify common web vulnerabilities such as broken authentication and weak encryption.

OSINT & Digital Footprint Analysis, Tools: Advanced Search Engines (Google Dorks).

Applied advanced search engine operators and OSINT techniques to gather publicly available information. Compiled findings into a report to demonstrate practical knowledge of the reconnaissance phase in ethical hacking.
